

# VX-200

## Moulded Cabinet PA Speaker System

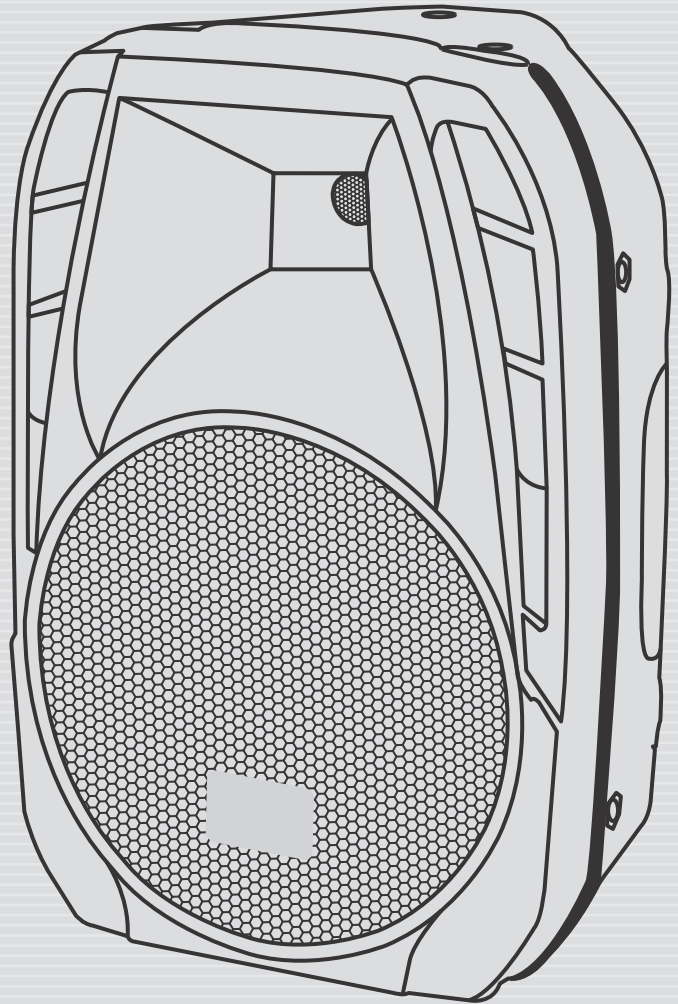

Compact & portable 200W, 2-Way PA speaker system comprises of a high performance 10" LF speaker and a reliable HF driver. Ideal for use in a wide variety of speech & music applications.

- n Rugged & portable bass reflex cabinet moulded with a special polypropylene plastic material.
- n Built with a 10" 200W reliable & efficient LF speaker.
- n High performance HF driver made with a 1.0" voice coil & titanium diaphragm.
- n Equipped with a professional passive crossover network using low resistance inductors & high quality metallised polyester capacitors.
- n Special cabinet profile allows functional flexibility in various professional audio applications such as stage monitors, live sound reinforcement and installed sound systems.
- n A pole socket is provided at the bottom for easy stand mounting as well as wall mounting.
- n Three integrated M8 flying points each on top side and right side of the cabinet enable vertical and horizontal suspension applications.
